Impact Factor:

показатель влияния издания

Чем обусловлена весьма существенная разница импакт-фактора журналов, входящих в ядро РИНЦ, в различных областях науки (в частности, довольно низкий в лингвистике)?

- Рассчитывается только для журналов Web of Science SCIE и SSCI по Web of Science Core Collection

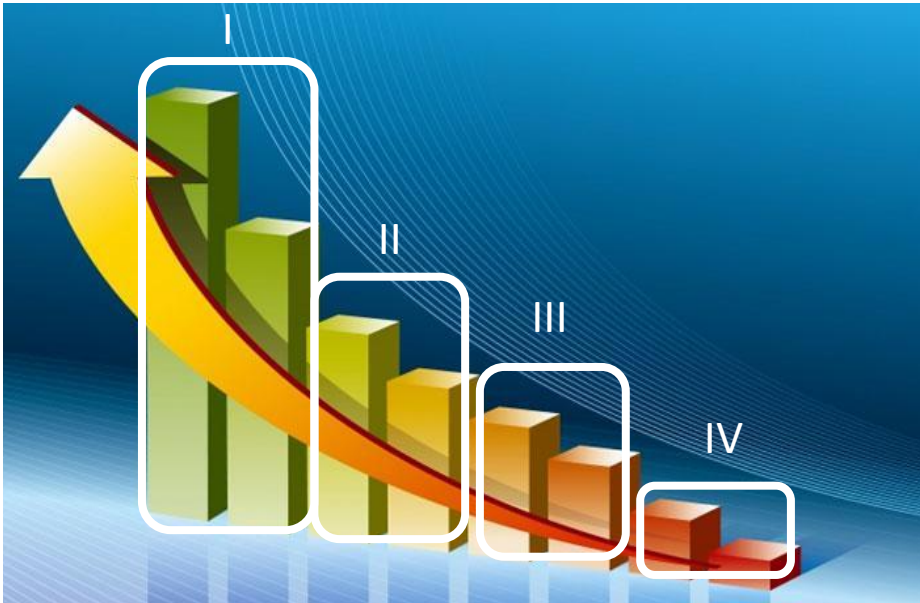

$$IF_{2019} = \frac{\text{Количество цитирований в 2019 статей опубликованных в 2017–2018}}{\text{Количество статей в 2017 и 2018}}$$

Квартиль журнала

Почему в перечне научных журналов по медицине указывается импакт-фактор, как 3,45. Как можно узнать "ценность" журнала в привычных для нас цифрах (20, 30, 50 и т.д.)

- Только у изданий с импакт-фактором

Квартиль – ранг научного журнала, зависящий от его цитирования в рамках определенной категории

Выделяют четыре кварталя:

Самый высокий – Q1, низкий – Q4

Сравнить журналы разных дисциплин можно по квартилью

Wulfenia (ISSN: 1561-882X) is a multi-disciplinary, peer-reviewed international ISI journal for publication of novel ideas, the state-of-the-art research results and fundamental advances in all aspects of theoretical and applied topics in science and engineering including areas in natural and social sciences. The objective of the Wulfenia is to serve a better understanding between the researchers and practitioners from academia and industry. The paper submitted to Wulfenia should describe original and previously unpublished works, not currently under review by another conference, workshop or journal. However, authors can submit the extended version of conference papers. Papers for publication are selected through peer review to ensure originality, relevance, and readability. Upon preliminary evaluation by the Editorial Board, the papers are sent to two referees (experts in respective fields) for evaluation. The decision of the Editor-in-Chief to publish a paper in concurrence with referee(s) opinion is considered final. The journal average impact factor is now 8.761!!!!(JCR2020)

WULFENIA | MEMBERS OF THE EDITORIAL BOARD AND REVIEWERS

The editor-in-chief of Wulfenia is responsible for deciding which of the papers submitted should be published. She/He confers with the editorial board and reviewers in making her/his decisions. The validation of the work in question and its importance to researchers and readers must always underwrite such decisions. The editorial board is insisting on legal requirements and excludes libel, copyright infringement and plagiarism.

Papers previously submitted to the so-called, fraudulent "Multidisciplinary Wulfenia" (see warning on the homepage) are rejected. Wulfenia does not accept attempts to submit papers already published by "Multidisciplinary Wulfenia" to gain legal status.

Editors ensure that the peer review process is fair, timely and unbiased. They follow best practice in avoiding the selection of fraudulent peer reviewers. Submitted papers must be reviewed by two independent reviewers, additional opinions should be obtained if necessary. Reviewers shall have excellent expertise in the relevant field and potential conflicts of interest should be excluded.

Editors and reviewers of Wulfenia evaluate manuscripts for their intellectual content without regard to race, religious belief, ethnic origin, gender, sexual orientation, citizenship or political philosophy of the authors.

Attempts to influence the journal's ranking by artificially increasing any journal metric are not allowed. Editors and reviewers do not require that references to Wulfenia's articles have to be included except for genuine scholarly reasons and authors should not be required to include references to the editor's own articles or products and services which are of interest to the editor or reviewer.

Editors and reviewers protect the confidentiality of all material submitted to Wulfenia and all communications with reviewers. Reviewers' identities keep protected. Communication with authors is carried out solely by the editor-in-chief. Unpublished materials of a submitted manuscript must not be used in an editor's or reviewer's own research without the express written consent of the author. Privileged information or ideas obtained through peer review must be kept confidential and not used for personal advantage.

Editors and reviewers must not be involved in decisions about papers written by themselves or by family members or colleagues or which relate to products or services in which they have an interest.

Peer Review Process

- Receipt of manuscripts will be acknowledged promptly by the editorial staff.
- Manuscripts will be forwarded to the member of the Journal's Peer Review Editorial Board (i.e., Monitoring Editor) who has been identified as an expert in the topic area of the paper.
- Submissions will undergo initial evaluation by the Monitoring Editor to identify qualified technical reviewers based on the topic of the paper.
- Papers will be sent to three peer reviewers for evaluation. (At the time of submission, authors may provide names and addresses of potential reviewers for their manuscript.)
- Conflicting reviews or other issues affecting the final evaluation of a manuscript will be resolved by the Journal Editor in collaboration with the Monitoring Editor.
- Acceptance, recommended revisions, or rejection of submissions will normally occur within a month. Authors may access the online Journal site at <http://multidisciplinarywulfenia.org> to monitor the progress of their paper.

Acceptance, recommended revisions, or rejection of submissions will normally occur within a month. <http://multidisciplinarywulfenia.org>

Аннотация

Комментарий к делу *Stambovsky v. Ackley*, 169 A.D.2d 254 (N.Y. App. Div. 1991) По общему правилу в договорном праве большинства штатов США в сделках с недвижимостью действует принцип «покупатель, будь бдителен» (*caveat emptor*). Этот принцип сводится к тому, что покупатель должен самостоятельно проверять объект недвижимости на скрытые дефекты перед совершением сделки, иначе он лишается права требовать расторжения договора. При этом продавец не должен умышленно скрывать сведения о продаваемом объекте недвижимости. Умышленным сокрытием считается как прямая ложь продавца о существенных обстоятельствах, так и активные действия, направленные на сокрытие существенных обстоятельств. Если же покупатель не спросил, а продавец не предпринимал активных действий по сокрытию существенных обстоятельств, сделка считается совершенной надлежащим образом. Однако

Due diligence in international law: the rule of neutrality in the general principle

By: [Ouedraogo, A \(Ouedraogo, Awalou\)](#)¹

REVUE GENERAL DE DROIT
Volume: 42 Issue: 2 Page: 641-683
DOI: 10.7202/1026909ar
Published: 2012
Document Type: Article

Abstract

The concept of **due diligence** is related to the theory of international obligations. The simple but yet complex idea is that diligence is an element of certain primary standards of the State, including the obligations of prevention. Its scope is limited to situations where the State is required to prevent or suppress certain damage. Rooted in the Roman system of law through the figure of the bonus pater familias, **due diligence** appears in the international legal order first in the area of neutrality before experiencing a fortune in other areas including the protection of foreigners, the security of foreign States, human rights, the environment. This article aims to demonstrate that **due diligence** has grown from a simple rule of neutrality to a customary norm of general international law before acquiring today
